Terms and Conditions

- Corrosion evaluation survey rate per job includes up to Four (4) consecutive days of survey per well necessary to cover the requested survey interval per well.
- The terms of this proposal are binding and an integral part of any commercial agreement among the parties. A Purchase Order (PO) is

required prior job mobilization.

3. Rates are in US Dollars and are effective for the scope of work described. Any variation will be reflected in the final invoice.

4. All prices are exclusive of WHT /VAT and all taxes unless otherwise stated. All applicable tax duties and government charges payable in respect of the Products and Services will be added to the final invoice. This includes all other taxes and duties payable in connection with the supply of Services such as its export and import into any territory.

5. Payment terms for the works are forty-five (45) days from receipt of the Contractor correct original invoice.

6. Any claim or query by the Company in respect of the invoiced price of the Services must be notified to Contractor by the Company within 14 days from the invoice date, otherwise, will be considered as confirmed and approved.

7. Unless otherwise stated, equipment includes main and back up tools. In the event additional tools are needed, a formal written request will be required. Additional tools will be quoted separately as per Contractor current pricelist.

8. Four (4) days free of charge allowance for equipment rental and Logging Engineer daily charges, will apply per job. Wellsite days are counted once equipment and/or engineer arrives on location. Days above Four (4) days will be charged at USD 1,100 per day for tool rental and USD 1,300 per day for logging engineer.

9. Contractor reserves the right to decline the works should there be any technical or tool specification consideration limiting the performance of the works or safety of the personnel.

10. Incomplete Operations charges applies if survey cannot be completed after rig up due to factors outside the control of Contractor. The Incomplete Operation attracts 50% of quoted charges shown above.

11. Job Cancellation charges apply and attract 50% of the above rates if job is cancelled after equipment is mobilized. Cancellation charges are in addition to all applicable standby and mobilization charges.

12. Deviated wells above 45 deg as well as passes where tractor or coil tubing conveyed is used attracts 50% surcharge of the above rates.

13. In the event of any Equipment whilst under Company group's custody including but not limited to, operation, storage, transportation by Customer group or its affiliates, is reported missing, lost in hole or otherwise is not returned to the Contractor, such Equipment shall be classified as Lost-In-Hole (LIH) and will be charge according to the Lost-In-Hole (LIH) rates shown in Attachment-1 to this proposal.

14. In the event of any Equipment provided to the Company or its affiliates is returned in a condition that is determined by Contractor, be in a condition beyond economical repair, Contractor shall classify such Equipment as Damaged-Beyond-Repair (DBR). The applicable charges are shown in the Lost-In-Hole (LIH) inserted in Attachment-1 to this proposal.

15. This quotation has a one hundred and twenty (120) days validity.
